Anyone wanting a primer on the secret of China's economic success needs look no further than China Development Bank (CDB)—which has displaced the World Bank as the world's biggest development bank, lending billions to countries around the globe to further Chinese policy goals. In tonight's talk, Bloomberg authors Michael Forsythe and Henry Sanderson will outline how the bank is at the center of China's domestic economic growth, how it is helping to expand China's influence in strategically important overseas markets. Its centrality to China's development model is further elaborated in their recently-published book, [China's Superbank: Debt, Oil and Influence - How China Development Bank is Rewriting the Rules of Finance](#).

Henry Sanderson has been a Beijing-based reporter for [Bloomberg News](#) since 2010. Prior to that, he was a reporter for many years for Associated Press in Beijing and Dow Jones in New York. He holds a BA from the University of Leeds and an MA in East Asian Studies from Columbia.

Michael Forsythe has been a reporter and editor for [Bloomberg News](#) since 2000. Prior to that, he was an officer in the United States Navy for seven years. Since returning to Beijing in 2009, Mike has focused on policy and politics, with particular emphasis on the international impact of "China Inc." He is a graduate of Georgetown University (with a Bachelor's degree in International Economics) and Harvard University (with a Master's degree in East Asian Regional Studies).
