

The Thinkery - "Everything is Interesting"

Barnaby Powell presents:

Culture and Empire

Is China really an Empire and, if so, to what extent is its overseas expansion constrained by its culture? Historically, empires - Roman, Ottoman, British - have expanded until they stopped. Powell examines the link between culture and empire as China acquires holdings in many countries' national industries - chunks of nuclear power, vineyards, copper mountains, cars and infrastructure. Should we be nervous?
