This talk will demonstrate how ChatGPT has the ability to change our work and lives. The speaker will demonstrate how it disrupts the AI status quo, for example how it has the potential to take down Google. Finally, the speaker will concretely show and explain its limitations, elaborate on how it works, and explain why its abilities were outside industry expectations.

[Luo Mingke](#) is Founder and CEO of MRS.ai (MingRi Sapient), a stealth-mode AI Startup, designing and building the future-facing Intelligent Network of AI. He has collaborated with MNCs including BMW, Visa, Intel and other leaders in the financial services, smart cities, and automotive & mobility sectors. Author of the online series Artificial Unintelligence, Mingke is a past TEDx Shanghai speaker on AI and an influencer in the conversational AI developer community. Mingke has been a guest speaker at the CEIBS MBA program, and consultant to the C-Suites of Fortune 500 companies on AI & intelligentization strategy, open innovation, and AI product planning.

[China Crossroads](#) hosts talks on all topics related to China, including business, foreign policy, and other areas as they relate to China, the idea being that China is both already a “crossroads” of the world and itself at a “crossroads” in terms of its future global influence.
