The talk will focus on key themes in the global climate finance market, specifically on the sectors where the funding is going, key gaps, and the climate debt market.

[Shreyans Bhaskar](#) is Economist at the New Development Bank (NDB), where he focuses on India's macroeconomy, as well as on climate finance with a focus on emerging markets. Shreyans was previously the Economist for India and Singapore at the Economist Intelligence Unit (EIU).

[China Crossroads](#) hosts talks on all topics related to China, including business, foreign policy, and other areas as they relate to China, the idea being that China is both already a "crossroads" of the world and itself at a "crossroads" in terms of its future global influence.
