Drawing from three decades of AI expertise, this talk delves into six critical strategies designed to seamlessly integrate generative AI into an established organization. We'll explore how these pillars not only enhance operational efficiency but also drive innovation and competitive advantage. Whether you're taking initial steps towards AI adoption or looking to refine your strategy, this talk will provide you with the insights and tools necessary for successful implementation. Get ready to transform your organization and unlock new opportunities with the power of generative AI.

[Stephane Monsallier](#) is Founder and CEO of System in Motion and renowned AI expert and keynote speaker who does not believe AI will replace you. Instead, he is committed to empowering knowledge workers with advanced AI tools. He began coding at age 10 and later earned a master's degree in AI from CentraleSupélec. After a decade in Financial IT, he founded System in Motion in Shanghai in 2004, aiming to modernize corporate Information systems. Stephane is deeply involved in Shanghai's entrepreneurial scene, mentoring tech startups and contributing to La French Tech Shanghai. Currently, he focuses on Generative AI, offering real-world insights and forward-thinking strategies. His expertise and passion make him a sought-after speaker, mentor, and advisor in the technology sector.

[China Crossroads](#) hosts talks on all topics related to China, including business, foreign policy, and other areas as they relate to China, the idea being that China is both already a "crossroads" of the world and itself at a "crossroads" in terms of its future global influence.
